HVAC HELPER / INSTALLATION APPRENTICE / FIELD SUPPORT

SUMMARY

Hands-on field support candidate targeting HVAC helper, apprentice, installer helper, facilities helper, and maintenance-helper roles. Background includes approximately 3 years of prior HVAC installation support experience, security/low-voltage installation support, physically demanding moving/driving work, inventory and fulfillment operations, customer-site communication, troubleshooting, and reliability in practical work environments.

CORE SKILLS

HVAC installation support	Installer helper work	Tools and materials handling
Customer-site work	Physical labor	Following procedures
Mechanical aptitude	Troubleshooting mindset	Low-voltage/security installation support
Wire and cable runs	Inventory control	Equipment handling
Route-based work	Team support	Reliability
Valid driver's license		

RELEVANT EXPERIENCE

Driver / Mover

Clark And Sons Moving | Cincinnati, OH | Mar. 8, 2022 - Dec. 12, 2024

- Worked approximately 3 years total, including roughly 1 year as a driver with responsibility for route execution, vehicle use, customer property, and crew support.
- Loaded, unloaded, protected customer property, and handled physically demanding work in homes and businesses.
- Communicated with customers, solved job-site problems, and stayed reliable in route-based, customer-facing physical work.
- Followed instructions, adapted to unclear situations, and helped complete jobs safely and efficiently.

D2C Packing Specialist

Eleeo | Cincinnati, OH | Jan. 7, 2025 - Apr. 28, 2026

- Redesigned and reorganized the picking system and inventory layout to improve fulfillment flow, order accuracy, and day-to-day usability.
- Counted, rotated, and organized inventory; handled labels, returns, online orders, picking order printing, and shipping readiness.
- Helped improve workflow quality and reduce error rates by about 60%, contributing to a long-standing 1% error target that had not been reached for roughly two years before arrival.
- Resolved customer complaints and online order issues while maintaining accuracy under time pressure.
- Worked independently and with a team in a fast-moving operations environment with changing priorities.

Low-Voltage / Security Installation Support

Pro-Techs Security / Family Business Background | Cincinnati / Owensville, OH area | Approx. 2001-2011, intermittent

- Installed, serviced, updated, and troubleshooted residential low-voltage and security systems in customer-site environments.
- Ran wire and cable for new installations, repairs, updates, and device connections.
- Programmed alarm/security panels and tested cameras, DVRs, motion detectors, smoke detectors, control panels, sensors, and related equipment.

- Installed cameras/CCTV, DVRs, motion detectors, smoke detectors, control panels, sprinkler systems, central vacuum systems, invisible fences, automatic gates, automatic doors, and related residential systems.
- Supported routine and emergency service calls by diagnosing failures, restoring function, explaining problems to customers, and completing follow-up work.
- Helped with supplier coordination, equipment purchasing, estimates, proposals, customer communication, and job-site problem solving.

ADDITIONAL RELEVANT BACKGROUND

Additional HVAC Background

- Prior HVAC installation support experience, approximately 3 years, including helper-level field work, installation support, tools/materials handling, customer-site work, and physical job-site labor.
- Comfortable with hands-on work, following procedures, carrying equipment, working around mechanical systems, and learning trade-specific methods from senior technicians.
- Related background in security/low-voltage installation, moving/driving, fulfillment, inventory, and customer-site problem solving.

EDUCATION

Live Oaks Career Campus | Milford, OH | Interactive Media Program, completed 2005

Amelia High School | Amelia, OH | High School Diploma, 2005

APPLICATION STATEMENT

I am applying for HVAC helper, apprentice, installation support, maintenance-helper, and facilities support roles where hands-on work, reliability, following procedures, tools/materials handling, customer-site professionalism, and willingness to learn matter. My background includes prior HVAC installation support, low-voltage/security installation exposure, moving/driving, fulfillment, inventory, and field problem solving.
